# LAWN GRASS SEED

## ELLIOTT'S CENTRAL PARK MIXTURE

We are the original introducers of the above brand of LAWN GRASS SEED, and with over FIFTY YEARS' EXPERIENCE and a constantly increasing demand for the CENTRAL PARK MIXTURE we claim it to be the **Cleanest and Best Lawn Seed Ever Offered.**

**Price: Peck, \$1.00; Measured Bushel (about 20 lbs.), \$3.50; 100 lbs., \$15.50.**

## FRENCH OR EMERALD LAWN GRASS SEED.

We put up this mixture to supply the demand for a cheaper grade than our Central Park Brand, but we do not recommend it where the best results are wanted. **Price, per Peck, 75cts.; Bushel (about 16 lbs.), \$2.50.**

## ELLIOTT'S "SURE CROP" LAWN SEED.

A good special mixture where price instead of quality is the consideration, and is guaranteed equal to any offered at the price. **Per Bushel (about 15 lbs.), \$1.25.**

## ELLIOTT'S "TERRACE" MIXTURE.

A special combination of grasses that produce strong spreading roots, recommended for sowing on terraces, embankments and similar locations, where it will produce and maintain a rich green turf throughout the season. **Price, per Peck, \$1.25; Bushel (about 20 lbs.), \$4.50.**

NEW YORK

JANUARY, 1902.

The following quotations are intended for the wholesale *trade only*, and are subject to change without notice.

Terms of sale are net cash June 1, 1901, without regard to dating. A discount of one per cent. a month will be allowed on all cash payments made before June 1. Goods purchased after June 1 are net cash on October 1 and after October 1 net cash on January 1 following.

Grass, Clover and Bird Seed, Onion Sets, Potatoes, Fertilizers and Insecticides are net cash, ten days.

Shipping: In the absence of directions, we will, of course, follow our best judgment, but we prefer to have our customers state by which route they desire their goods forwarded.

All goods are delivered F. O. B. New York; bags are charged at cost. While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we do not give any warranty, express or implied, and if the purchaser does not care to receive the goods on these conditions, they must be returned at once.

# FLOWER SEEDS.

In Lithographed Packages for Counter Trade.

(FOR PRICES SEE PAGE 12.)

The cut herewith is a photo-engraving of the elegant blue-covered hinged boxes which we furnish gratis to purchasers of our Packet Flower Seeds.

We will send this box and 100 packages assorted seeds, postpaid by mail, at prices named on page 12, and more can be ordered by mail as wanted. We will also include with all first orders, and without extra charge, a finely executed lithograph of flowers, size 17x25, printed in 10 colors. This will make an attractive advertisement and a real ornament in any sales-room.

## MASTICA.

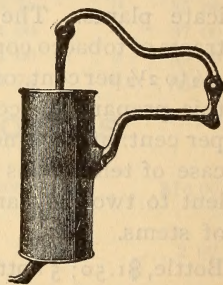

FOR GLAZING GREENHOUSES, NEW OR OLD.

ELASTIC, ADHESIVE, EASY TO APPLY.

Every florist has experienced difficulty in getting putty that is satisfactory for any length of time. The fact is, putty is not adapted to stand the severe and varied tests to which it is subjected on a greenhouse. Mastica, being elastic, is not affected by the expansion and contraction, and retains this property for years.

1 gallon, \$1.25. Special quotations on case lots.

Mastica Glazing Machines, \$1.25 each.

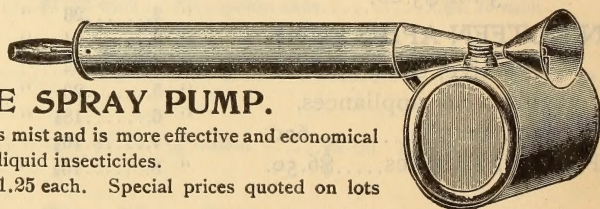

Mastica Machine.

## CYCLONE SPRAY PUMP.

Throws a spray as fine as mist and is more effective and economical than any other distributor of liquid insecticides.

Tin, 75 cents; copper, \$1.25 each. Special prices quoted on lots of one dozen and over.

# MUSHROOMS

The growing of mushrooms for the market is comparatively a new industry, and is meeting with more or less success throughout the country.

The demands for these succulents are on the increase each year.

They are easy of culture, needing only a temperature of from 55° to 65°, and can be grown successfully under greenhouse benches, in cellars, or in houses built for the purpose.

Above is a good illustration of a bed grown from our celebrated Milltrack Spawn.

# AUTO-SPRAY

A SELF-OPERATING OR AUTOMATIC SPRAYER

Length of Cylinder, 21 inches  
 Diameter of Cylinder, 7 inches  
 Weight, Empty, 7 pounds  
 Weight, Loaded, 39 pounds  
 Capacity, about 4 gallons

**T**HE CLIMAX of all Sprayers, combining every conceivable point of excellence, including economy, durability, low price and ease in carrying and operating.

## WHAT THE AUTO-SPRAY WILL DO

The cut shows the air chamber and reservoir combined. Fill the reservoir not more than two-thirds full with any solution used for spraying; insert the air pump at the end of the can, and eight to ten strokes of plunger in air chamber will compress enough air to discharge the entire contents in a continuous spray for nine minutes.

**IT SPRAYS** Nikoteen or other insecticides in greenhouses, etc., effectually and economically.

**IT SPRAYS** Insecticides and fungicides upon all plant and tree life without loss of time or material.

**IT SPRAYS** Insecticides, white-wash, etc., in hen houses and is the poultry keeper's true friend.

**IT SPRAYS** Successfully in the greenhouse, in the garden, in the orchard or on the farm.

**T**HE AUTO-SPRAY is made in both galvanized steel and brass. We strongly advise the use of the brass machine, because the galvanized steel tank is the only part which can ever give out which may not be easily replaced. Brass machines sold two years ago are still in active service, with every promise that they will last a life time.

**BEAR IN MIND** that all machines are sent on approval, subject to inspection and **FULLY WARRANTED.**

### PRICES:

**Auto-Spray, Galvanized Steel Tank** with 2 ft. extension pipe, \$4.50 each.

**Auto-Spray, Brass Tank,** with 2 ft. extension pipe, \$6.00 each.
